A Food For Families Program has been established by the Knights for the month of September. Place your donations in the container in the vestibule.

It's Never Too Early to Plan for the Future
Traditionally, this is the month for two important life events: graduations and weddings. These two events are also opportunities to review your life insurance coverage – particularly if you're young and in good health.
It's a simple fact that when you're young and healthy, your rates for coverage will be lower when you're older and your health might not be as good. And even if you're in excellent health, there's no way to predict exactly when your death will occur.
It's unavoidable that your family will suffer emotionally if you should die. However,

financial hardship is something that you can prevent.
Owning enough life insurance ensures that your family will always have enough money, come what may. As your K of C agent, I can help you determine how much is "enough" for your own family. I can also discuss with you the merits of each kind of life insurance. It's become fashionable to focus almost exclusively on planning for a prosperous retirement. Yet even in this age of improved health and longevity, some families must still endure the premature loss of a breadwinner. The fact is, none of us can be assured that retirement will happen until we

actually get there.
By taking steps now, you protect your loved ones against the possibility of your death. What's more, the sooner you act, the greater the benefits will be for your family – and, possibly, for you as well. Please consider giving me a call.
